

**Enjoy 24-hour access to your accounts. It's fast, easy to use and confidential.**

We want to make it quick and easy for you to do business with us. In addition to the standard touch-tone functions, our Automated System is equipped with advanced speech recognition that allows you to interact with the system using spoken commands. With a few words, you can retrieve account information, process transactions and more. The Automated System recognizes natural speech patterns as well as convenient one-word commands.

To access, just dial **800-345-6611**. At this point, you are ready to start entering spoken commands. If you wish to direct the system using your touch tone key pad, press \*\* at any time. You can return to the speech recognition by pressing \*6.

**First-Time Registration**

The first time you use the system to access your account or portfolio you will be asked to provide one of your account numbers and create a new Personal Identification Number (PIN). When prompted, enter a 10-digit account number. Your new PIN must be 4-8 digits in length. During future sessions you will be asked to enter your Social Security Number (SSN) and PIN before you can access certain account information. Secured functions are marked with a "1", these options are available when logged in with SSN and PIN.

**Speech Recognition Tips**

- You can interrupt at any time; there's no need to wait. Just speak clearly so the system can understand you.
- If the system is not sure what you want to do, it will suggest a list of options.
- When speaking a fund name, you do not need to say "Columbia", "class" or "fund". For example, to find information on the "Columbia Large Cap Value Fund Class A", just say "Large Cap Value A". You can also key in the fund number when you're in Speech Recognition to avoid misinterpretation of fund names.
- Use a standard handset for the best results. Cellular and speaker phones may cause the system to misunderstand your requests.

**Using this guide**

The following is a function guide that can help you whether you choose to use touchtone or speech recognition. If you have questions at any time during your call, simply say "Representative" (in speech recognition) or press 0 (in touchtone) and you will be transferred to a Shareholder Services Representative during normal business hours (Monday through Friday, 8 A.M. to 8 P.M., EST).

**Speech Recognition / Touch-Tone Options**

- \*\* 24/7 Account access
- \*\* Easy access to Balances and Account Information
- \*\* Self-Service (No Waiting!)

1 Option available only when logged in with SSN and PIN  
 2 Purchase is available only when bank account information is already on file for 15 days.  
 3 Redemption by the automated system not available for Retirement Accounts. Please speak to a representative.

\*Balances reflect all shares that are in the account. Purchases made less than 10 business days ago are considered uncollected, and those shares will not be available for redemption, but will still be included in the quoted balance.
